You play as a tiny, tiny "dog" that can be used to interact with various puzzles and to fight other dogs. Your main purpose is to find a way to defeat a giant dog boss at the end of the level. To do so, you must bring together the scattered "bubbles" of the level by destroying the walls between them. You have a limited amount of time to do this, because if any bubbles are left uncollected when the boss arrives, the dog you are controlling will be eaten. You are a tiny "dog," so when you defeat a bubble, you become large... and you can easily pop bigger bubbles! When you grow large enough, you can destroy the walls between bubbles. If you have enough power you can stop the boss from reaching its target and you will earn points. Also, you can use your small dog form to jump over bubbles to reach an area that you cannot normally reach, like a secret door. You must collect as many points as you can before time runs out and the boss eats you!
