Four races and four classes that you can freely mix and match.

Over 200 items that can be combined into more than 20,000 combinations.

Its own fair trading system made to encourage competition.

An intense battle and a dialogue mechanic where you complete such tasks as defeating monsters and NPCs to acquire items.

## **Motion Design**

The motion design of Tarnished is an example of the constant striving to create motion that offers a deeply-felt sense of exhilaration.

The motions of your character as they move around during real play are managed by a motion capture system utilizing the Unity Game Engine. The data detected by the capture is analyzed, and appropriate motions are extracted. We combine hand-drawn animations with motion capture data to forge a highly natural and lively world.

☐We have completed the first act of the Story Mode, and are now working on the second act. We have also started planning for the second act, the so-called Random Mode.

☐The game's Ready-to-Play function will be available soon. When it is, players will be able to easily enjoy our work from the beginning to the end.
