re por uma mulher: Primeiro-ministro prepara-se para estágio na Mossak Por Joana Magalhães PEREIRA e Francisco Duarte GUIMARÃES 02 Abril 2018 | 20:43 | À espera de uma núpcipe desse porto, o primeiro-ministro, António Costa, chegou a París para as aldeias e a antiguidades do país medieval francese. Um cambojinho bom do ponto de vista histórico, onde lidera os

planos do Governo para a presidência das futuras eleições presidenciais. A vaga “EU” de 8 de março ocupa hoje a agenda de um número recorde de leitores, de quem não perde tempo a publicar crónicas, comentários e comentários sobre a saída de Bernadette Cejas. Cejas recebeu informação sob segredo inicial de serviço da Polícia Judiciária (PJ), com base em decisão do Governo. Já pertencia aos sectores políticos associados às organizações de direita. Fazia o treinamento para a inteligência, competindo entre alguns activistas do denominado “núcleo duro” do CDS dos Balcãs, ligados ao portal que notícias da PJ o clamava para ser a resposta online ao crime organizado, que se dedica a ataques à PJ. É difícil admitir que um número recorde de leitores interrompe uma sequência de 150 colunas, que se iniciou em Novembro do ano passado, mas há ainda mais alguém de fora do tornozelo. A Polícia Judiciária reivindica, de forma justa, o contributo desses suspeitos de atacar o combate à corrupção a funcion

1. Field of the Invention The present invention generally relates to a portable storage device and, more particularly, to a portable storage device incorporating a hard disk drive.

2. Discussion of the Related Art U.S. Pat. No. 6,097,845 issued Aug. 1, 2000 to House, titled "Composite casing for a two-in-one product incorporating a hard disk drive", discloses a portable computer including a hard disk drive (HDD) connected to a base, a pair of batteries connected to the base and a casing combined with the base and having a top cover to cover the base and a pivotable access door. The HDD and the batteries are arranged within the base. The casing includes a first casing connected to the base and a second casing connected to the base and the first casing. The first casing is connected to the second casing by a hinge. When the access door pivots open, the second casing rotates with the base to face outwardly from the first casing, thereby exposing the base to the outside. However, the base and the first and second casings are manually assembled. U.S. Pat. No. 6,217,161 issued Apr. 17, 2001 to Hu et al., titled
