Sinn Féin is opposed to the imposition of a civil partnership for same sex couples but will abstain on the issue in the Assembly. Deputy Pól Ó Braon, who is Fine Gael's candidate for Donegal West, has said that a civil partnership for same sex couples will not be introduced in this election. Some Assembly members are worried that the introduction of a civil partnership will put pressure on the Assembly to extend its remit to include civil partnerships, which Fine Gael will not do. Mr Ó Braon said that while he supports civil partnerships for same sex couples he will abstain on the issue at this election because Sinn Féin will not allow the issue to be the priority in this election.

You know that feeling, when you just want to dress up on a Saturday in your best clothes, and your husband surprises you with a budget-friendly outfit?! We did it one weekend, of course! In our case, it was our anniversary weekend, and he surprised me with this really cute pinkish dress and a super fun pair of sunglasses with a dragon on them. We always pick the first and second pictures that came out of our camera to use as the header and background for our posts, but this time we decided to create a video as the background. We had a great weekend celebrating our anniversary and spending time with friends, but it all slipped our minds until it was time to create this post! We didn't dress up for our wedding anniversary, but we did dress up a couple of weekends ago for my husband's birthday

INTRO GAMES TIPS This game has something to offer each and every time you play. From the time you start controlling the game the end of time. That is, until you get bored with the game for the time being. Letting the timer count down will give you a good idea of how much time you have (and time to get your nose out of that book!), which is a fabulous thing. There aren't very many games that do such a wonderful and simple thing. The only other game that I can think of that allows you to time how much time you have remaining is Puyo Pop (which I hope to get to one of these days), but aside from that I can't think of any other games that do what Crop Circle does (especially ones that combine such a lovely theme as crop circles, with a hidden object, brain teaser, and word puzzle). So how does it work? A wonderful thing is how this game gives you the time as it goes along. So let's break it down for you, as our dear friends over on Google+ would say. When the timer starts counting down (generally when you start playing) the top controls will change to match the theme

Lady Gaga has released an exclusive, limited-edition collaboration with Ariana Grande entitled 'Rain on Me (with Ariana Grande)'. Download the amazing new song, and listen to the Ariana Grande vocals: "rain on me and feel my love rain down on me". Storyline: In this art and sound installation featuring the music of Lady Gaga and Ariana Grande, not only will you get to witness these two divas on stage with their talented collaborators but you will also have the opportunity to listen to the amazing music that was produced for the show! Through the use of the HTC Vive and Oculus Rift headset you will be able to immerse yourself in the surroundings of the performance and the unique audio-visual experience of the concert. Players can look around at everything happening around them during the performance and even look around the artists' dressing rooms. All this will be possible thanks to the use of the Oculus Rift and the HTC Vive. You can also talk to Lady Gaga and Ariana Grande and get their view on the show as they explain to you about their live presentation. The scene was designed and produced by renowned German designer Sarah-Verena Pohle. The last time these two artists were on stage together was for their sold-out show in New York at Madison Square Garden, hence you can also hear some of the songs featured in that show! The show features a great variety of different musical instruments, including the Air Slot Machine, the Super Luge and the Super Splurge. Each ticket gives you access to two characters and two mini-games. The first game you will get to play is the famous Slot Machine game. There are ten levels, each one containing a sequence of cards, which you will have to rotate with the stylus to try to guess the combination! If you get it right, you will get to play the next level of the slot game. The second game will require some serious skill. You will get to play the Super Luge game. But beware: it is much more complicated than you think! The goal is to guess correctly the combination, like in the slot game, but you will also need to avoid hitting other luge cars, in order to reach the finish line at the end of the level. So, if you are the racer who can achieve this amazing feat, you'll be rewarded with two new characters, in the shape of a lady c9d1549cdd

Finally a way to openly express my thoughts and point of view on video games. I have been playing video games since I was four years old as a result I am now in my late 20s. I have a wonderful partner, a bundle of loves, two cats and a dog. All are wonderful in their own way. If you're wondering where my views on video games are a little bit out-of-date, I wrote this years ago and I'm no longer of this opinion. My YouTube name is OperationFortress-Gaming-Media. What's new:

While the mainstream of Responsible Design has been focused on the health and welfare of farm animals, there are a few members of our community making it known that the relationship between humans and our furry companions is also important. The Wildlife Medical Center (WMC) is currently in need of a part time veterinary team to assist with medical and surgical work. Volunteers would be expected to work with the veterinarians as a team member and to assist in the treatment of hospital animals and consultation with veterinary students. Training will be provided in a variety of medical skills including medical treatments, wound care, physical exams, vaccinations and spay/neuter. Volunteers should have a current state of medical license in the United States. This is an ideal opportunity for those who like the idea of animals and a different medical experience, and want to assist a great organization that needs help. The only required knowledge is a willingness to help and a drive. We are a group of 40 medical students from Duke University, teaching young doctors at the WMC how to treat and repair wounded wildlife. North Carolina State University (NCSU) offers a graduate program that provides the training base for participants of the CIRC program. The CIRC program offers both a Certified Surgical Internship and a Certified Surgical Technology internship. The CIRC program is administered through the Department of Veterinary Surgery and the M.S. Program at NCSU's College of Veterinary Medicine and Biomedical Sciences. The position of CIRC assistant supervisor is part of the medical management of the program. It requires relating to students in an educational and social manner, assisting them in their surgical and veterinary business practices, and supervising their daily functions. The position involves working at the NCSU hospital in Raleigh, NC, precepting surgical students and supervising all ancillary operations conducted at the hospital. The beneficial aspects of this job include:

- *Jobs for Morale**
- *Opportunity to interact with students**
- *Opportunity to communicate with fellow healthcare professionals**

What would the job entail: Provide guidance to the surgical interns, assist in learning business and administrative skills, attend to the daily activities of the hospital Provide supervision to students as they carry out the actual surgical procedures Primary responsibility for assisting in the preparation of surgical and medical students for the certification exams (certified surgical technology and certified surgical internship) Provide support and mentorship to all parties involved in the CIRC program and aid in the

UNMEMORY is a short but sprawling adventure featuring a cast of bizarre and unique characters. Over 20 years in the making, this tale of memory and identity is as chilling as it is captivating. A Labyrinth... [click here for more] -Aesthetics: Industrial Darkness II is clearly aesthetically aimed at fans of the original series, so it can't help but feel derivative and a little disjointed at times. That said, the level of polish is quite high, and in many ways it's a very solid game. -Plot: The story is a bit of a mess. I'm not entirely sure what's going on, and the story and characters don't flow together very well at times. -Gameplay: the...
