[In vitro activity of azithromycin and quinolone cephalosporins against anaerobic bacteria]. In vitro antimicrobial activity of azithromycin and cephalosporins used against anaerobic bacteria were assessed on total number of pathogens and isolates. Standard agar dilution method using NCCLS recommendations was used. Zone of inhibition of 150 strains of anaerobic bacteria isolated from clinical specimens were noted. Most anaerobic bacteria were isolated from clinical samples as follows: - anaerobic streptococci (100), - Bacteroides spp (85), - Clostridium spp (76), - Peptostreptococcus spp (68). - Prevotella spp (21), - Porphyromonas spp (18), - Fusobacterium spp (7), - Peptostreptococcus anaerobius (5). - Anaerobe-Prevotella and Bacteroides spp were most inhibited by azithromycin and ceftiofloxacin, respectively, Bacteroides fragilis strain YCH50 was the most susceptible to all tested antibiotics. Azithromycin and ceftiofloxacin had MIC50 and MIC90 equal to or lower than 4 mg/l. Against anaerobic pathogens, minimal inhibitory concentrations were significantly lower for azithromycin than for cefotaxime and ceftriaxone. 'Nightmare' by BBC | Writer: Peter Wild Storylines: Nightmare is a dark comedy about one last person from an island destroyed by the mist. He's hoping to escape the fallout but unfortunately he gets mixed up with a killer on the run. The Story: Peter Wild has written a number of screenplays, one of which, 'Gravesend' came to me a while back, from BBC Films. This led to working on a new TV production for Comedy Central by the name of 'Please Call Me Smith'. The script that I've described has now made it's way into BBC Films territory and has been put in front of a storyboard and director. There has been an ongoing casting process, and I am lucky enough to be one of the first to be put up for an audition. Nightmare has the air of a dark comedy but that is meant as a deception. I don't want this story to be played as a funny one and this is why it is important to set up the tone for the show correctly. The visual tone of the show is going to be very dark and gritty, but the cast is filled with brilliant characters who make the show much more than just a story about a monster. Audition Details: You can audition for Nightmare by sending in a link to your favorite music video and your character bio to producer Ben Hargraves and casting director Hamish Hamilton at comedycentralcasting.com I hope you enjoy this story, and I'm waiting to hear back from you.
