W3Tc is my default content handler. I can add the indexer using the site wide search tool by going to Site > Config > Site Search > Search Pools. I can also browse the W3TC Pool directly from the admin area. The issue I have is that, when I add the w3t-directory to the Indexer using the search tool, the Add command doesn't seem to be available as my search tab is empty. Can anyone tell me why this is? Do I need to have the Directory item added to my site (which I'd like to avoid). Cheers, A: It's because you don't have your w3
