
PS3Eye Camera Setup V3.0.0.0901.exe __TOP__

hi, i recently purchased a ps3eye camera and thought i would install the driver provided by the camera manufacturer (omnivision). i downloaded the ps3eyesetup.2.0b81021 (md5:b12debb79d0fda9e0ce0e816c1b13fde) and was able to install the driver and run the test program. however, when i go to skype settings (click on camera icon) and select video settings it says "no camera was found" and the same thing happens when i try to run the cl-eye test which tests my vision. i was thinking that maybe the camera cant be detected because i didnt install the driver correctly? i'm not sure how to go about fixing this. any help would be greatly appreciated. thanks i recently purchased a ps3eye camera and thought i would install the driver provided by the camera manufacturer (omnivision). i downloaded the ps3eyesetup.2.0b81021 (md5:b12debb79d0fda9e0ce0e816c1b13fde) and was able to install the driver and run the test program. however, when i go to skype settings (click on camera icon) and select video settings it says "no camera was found" and the same thing happens when i try to run the cl-eye test which tests my vision. i was thinking that maybe the camera cant be detected because i didnt install the driver correctly? i'm not sure how to go about fixing this. any help would be greatly appreciated. thanks i am having a similar problem. i downloaded the

v2.0.05 driver yesterday and had to reinstall the ps3eye camera driver. then i ran the setup program again and it worked. i wasnt able to test it though because i couldnt get the fps to change. now that i have the v3.0901 i cant even get 640x480 and 30 fps to work. what can i do? thanks!
