the most obvious flaw is its running time, it's very long. i think it's longer than chitty chitty bang bang. unfortunately there were other flaws with the movie, so i can't overlook what i've just said. another flaw was the colour filtering; the orange and yellow picture did get a bit distracting after a while, although the pacific does look beautiful. rossano brazzi, whose singing voice was dubbed, looked wooden, but was he ever not wooden i must say though, the dubbed singer did a marvellous job.however, there were a lot of truly excellent things about this movie. mitsi gaynor was a lovely lead, and she was wonderful in the musical numbers, she does get a little tiresome toward the end, but most musicals do have the same problem, the pirate bay is a peer-to-peer file sharing network and file indexing service founded in sweden in 2003. the pirate bay was named after the four-hundred-year-old law known as the pirata bay, which made it possible for people to share books anonymously, to this day, the pirate bay is the world's most popular torrent site. the site was served an injunction from the swedish court of appeals on april 27, 2012. the pirate bay was established in 2003 by fredrik neij, gottfrid svartholm, peter sunde and carl lundström. once i first heard about it i tried to download one of the latest apps, and i was offered to either pay or share files, if i paid, i'd be able to download one of the most popular apps on the market, and if i shared, i'd be able to download the app for free, that is how it works, when it comes to apps, i recommend checking them out, i don't recommend downloading the apps through torrents, because you'll get a virus or something, i tried to download one of the newest apps, but they won't let you download if you don't have a premium account. i've heard rumors that it's just a scam, but when i got to the page where i could download the app, i saw that it was the real thing, i hope that it's not a scam, but i'll have to wait and see.
