The name and prestige of the establishment are all that remains after the fall of the French Third Republic in 1940 and the German occupation in 1942. In that year, the university experienced a cruel destruction by the Nazis, being its history and name completely destroyed. This was due, on the one hand, to the fact that the campus had been transformed into a factory for military supplies, and on the other to the fact that the campus was taken over by German infantry in 1942. Relatives of the University Among the students that we found at the University of Paris, we can not but mention the French writer Charles Baudelaire (1821-1867), one of the first great writers of the French Symbolists movement and the founder of the modernist movement. This is the author of The songs of Icarus, with a heroine of his no less: the poet Louise Colet (1793-1867). The Montmartre quarter, with a population that leads France, is also attached to the historical site and subject of the most famous Parisian monuments. Indeed, the former cabaret Le Chat Noir, which was turned into a university museum, continues to be a favorite destination for tourists. Moreover, this is the home of the world-famous painter and innovator Renoir, particularly that of Le Petit Bateau, his painting of a boat. And lastly, the area is also famous for its very famous Museum of Modern Art. Since the 1970s, Parisians have been using the metro to travel around, but the rise of car culture has seen the increasing of its use for trips. In fact, the increase in the number of private vehicles has meant that the city's transport network is increasingly saturated. With that in mind, we included several travel guides for visitors who want to go on trips by car, but more for those who want to visit the city by bike. Paris as the city of light Paris has always been famous for its festivals and the ones that come to light every year are most welcome for tourists. The most famous, perhaps, is that of the Bastille and Notre-Dame, a symbol of the French Revolution.
