Archive.org does not have a mandate to download copyrighted work (i.e. work not published by the U.S. copyright office or based on works that are in the public domain). The choice of free licenses - like free software licenses - is up to the Library and they have made the choice to license under a free software license. Some time ago I saw downloadable books of the Charak Samhita, Manusmriti and Brihad Aranyaka Purana at some university library. I did not download the books from there and I have not seen them since. If they were downloaded from the Internet Archive, they might be different, since they were bought from book vendors. Nakshatram, I have often used the program "DownThemAll!" from the Internet-Masters. Most times it can do the job right enough. I have a feeling that you have similar problem. Fortunately the download manager I mentioned in the other comment solves it right away. May be this download manager has a Windows version too. Eddie Ebert, I want to download a book which has been given by my friend to read. She says that the book is about history of pharmacy and also has many useful info. Please tell me which book is that and what is the link with which I can download the book. Today, I have uploaded 1 youtube video for the songs from Suresh Krishna's film Sathya. If you have any corrections, please let me know (http://www.dailymotion.com/video/x17kox_shsasangrah-http-suresh-krishnas-film-sathya-the-songs-that-remain-in_music Copyrighted Music: 281844 - 279717)

thats great. The downloaded books would be in the seperate folder in your desktop. The book I have in my hands is of Swami Satyananda's English translation and commentary which is published by ISKCON, Karnataka, India. The year is 1994. Regards dont worry. We are here to help you. The download section is running fine. I think the problem is with the part where the two translations are done. If you can try to get your hands on another popular translation software like Ultiplex that supports batch download, you will get to download all the books in a single go.

Another alternative is to get your hands on a machine with Internet and if you have Java version 8 installed, you can use Java webstart to install it in your computer. I am not very sure about the version of Java you would require. Please see the information in the links I provided earlier. I have collected the songs from the film by Suresh Krishna and posted them here. I have also posted a video of one of the songs below. The purpose of this is to share the songs here so that they are not lost. Please leave a comment if you have any corrections. If anyone wants to translate the songs to other languages, please do and post them. I also have some books on Vivekananda that I would like to upload (eg Vivekananda On Rock), which I hope to upload sometime soon. This time, however, I have not been able to find any books on Vivekananda.

Please share any such resources that you might have. The following list is not a complete list, but it is a short list of the songs by Suresh Krishna. There is a complete list at http://freemusicarchive.org/music/Suresh_Krishna/919/The links are listed below. I will add further details or corrections as requested. 5ec8ef588b
